| I get my assignments in on time and perform to the best of my capability. |
| i did my work and paid attention in class |
| Class interested me so coming to class and completing the reading wasn't too bad. Homework wasn't too difficult and was also beneficial to better understanding the material. |
| I complete all my work and come to class but don't participate all the time |
| I always come to class and hand in all of my work on time. |
| The material was interesting and when I was able, I attended class. I did participate, but not as much as I would like, overall I was engaged . |
| I did almost all of the readings except for the Nickel and Dimed book. I was very interested in the topic but the actual book was not very interesting. |
| I did not put full effort into the class |
| Course is interesting and work load is not super difficult compared to other classes |
| I found the topics very interesting and engaged with them a lot. |

| i feel like i gained knowledge |
| Learned a lot about different topics regarding society |
| I have never taken a sociology class before |
| I took a similar class last year so some of it was review. But it was good to heard it from a different voice and perspective. |
| I learned about many theories and made me look at society in different perspectives. |
| I took the class before |
| Specific terms and theories |
| The assigned books for the course contained perspectives I hadn't seen before and really opened my eyes to certain issues in our society. |
| I learned a large amount of information about many social issues. This course really broadened my perspective about problems in our society. |

Q5 - How helpful were the course materials used by the instructor?

| i learned a lot |
| Syllabus helped a lot because it had a lot of good useful information. Readings were good to give a good base of knowledge for class discussions. Films and handouts and everything else were interesting |
| I like the slides and the textbook |
| Most of them related to the material we were learning in class. |
| I wish the power points were online. I was not sure what exactly to focus on for exams. |
| there were a good amount of changes that had to be made to the syllabus |
| The online textbook was really great |
| The readings, especially the New Jim Crow, were very eye opening. |
| Reading notes were not helpful for me personally |
| I love having the free textbook! |

Q6 - How effective was the instructor in conducting class sessions?

Number of Responses	% of Enrolled Students who Responded	Number of Enrolled Students	Average
26	100.0%	26	4.04

i understood what i had to
Professor was very clear and gave good lectures
Good at explaining things
I think that there should have been a more push back when students said things like "I don't think that women are interrupted by men because they are women, i think all people interrupt all people". This is not a statement that aligns with the course goals. i think the this should have pushed back on as it was said by a student that identifies as a male.
Sometimes the lecture would move quick and hard to write everything down which is stressful because they are not on moodle. Don't get a chance to write any extra notes you add when trying to write everything down
Presentations were easy to follow and the professor is clearly passionate about the subject, which makes it more engaging.
I liked the student discussion leader projects. I think it was an effective way to get people involved in the class
Really passionate, answered all questions

Q7 - How would you rate the assignments and tests the instructor required as measures of learning in this course?

Number of Responses	% of Enrolled Students who Responded	Number of Enrolled Students	Average

| Assignments were all fair based on the stuff we learned |
| Fair homework and tests |
| It would be better if we were given more of a study guide |
| Little to no unnecessary busy work, made managing time for the course much less stressful and allowed for better absorption of the content. |
| Tests and Papers were a good goal for learning but Professor Stanlee did not help foster an environment to improve after receiving the grades. There was not many study materials for the test and not many helpful comments on the paper |
| The midterm was a lot of writing. It felt like a little too much--I did not have time to really elaborate on my answers. |

Q8 - How would you rate the instructor's performance in providing fair, prompt, and helpful comments and grades on your work?

| Number of Responses	% of Enrolled Students who Responded	Number of Enrolled Students	Average

Great job
Fair grades on homework and essays
some times you are very vague. EX: you say a part is good but not great but then do not provide any more information
Better comments on how to improve
The comments were helpful. I didn't realize that comments on assignments were on Moodle until later in the, so maybe just make sure you mention that to the class earlier on. There's a chance you did this and I just missed it

Q9 - What is your overall rating of this instructor?

| Great job |
| Very helpful and personable |
| She was very helpful and I learned a lot |
| i think that there could be more clarity in what we are expected to do. I also think that there could be more review in power points so that there aren't as many typos. overall though, great professor and is kind and understanding to students which makes class a comfortable place. i love that students in groups done teach class once a week. love that we do so much pair sharing so that people can talk in a small group before they are asked in front of the whole class. |
| best teacher i have had here. Great advisor too! |
| Interesting class, but it felt very one sided most of the time. A lot of personal views were thrown at us that were political. |
| Very Relatable and intelligent professor who cares about her students |

Q10 - What is your overall rating of this course?

I learned a lot
Great job
Honestly everyone should take this course because it's nearly 2020 and if you're ignorant about the content of this course, you need to be caught up.
I learned a lot and enjoy the class

Q11 - What were you not asked above that you would like to say about this class?
graphs and charts to study & better understand the material
Provide powerpoint so that we can use the images
amazing class
she helped me choose my major and be happy in it
Too much emphasis on own personal views. Subtly attempts to make students conform to different ideas. Having differing view is seen as incorrect.

	How effective was the instructor in conducting the class sessions? (Consider, for example, the efficient use of class time to promote learning, the clarity and quality of instructor presentations, opportunities for active student involvement, etc.)	good	I think that there should have been a more push back when students said things like "I don't think that women are interrupted by men because they are women, i think all people interrupt all people". This is not a statement that aligns with the course goals. i think the this should have pushed back on as it was said by a student that identifies as a male.
