

## Solutions Assignment

Each Friday we will discuss some of the solutions that social activists, governments and other stakeholders have proposed to help alleviate the social problem we are studying.

Before class on Friday, students will spend some time online, researching the organizations, laws and outcomes of attempts to address the social problem. Students will turn in a 1-2 page paper; based on their research. You will answer the following questions.

- 1) What is the social problem under discussion?
  - a. Who are the stakeholders?
  - b. What are the consequences or impacts of the problem?
- 2) List several groups that are attempting to address this social problem.
  - a. Explain their goals and methods
- 3) Identify the purposed solutions to this social issue and evaluate them
  - a. What solutions are most effective and why?
  - b. What solutions are least effective and why?
- 4) Based on your research what method should we invest our resources in and why?
